

## CAUGHT A THIEF

Charles E. Suits, Wanted  
in East St. Louis.

## ARRESTED IN DECATUR TODAY

He was Given a Check for \$30 to Cash and Ran Away with the Money—Other Arrests Made.

Charles E. Suits, who is wanted at East St. Louis for larceny, was arrested in this city today and is held in custody at the city prison. Suits is accused with taking some money that belonged to another man and he has confessed to the crime.

Suits is employed at East St. Louis as a teamster. It seems that one of the employees named James Smith gave him a check for \$31 which the teamster was to cash. Instead of returning the money to the owner Suits jumped the town and took the money with him. Today T. W. Owens, a brakeman on the Wabash, was in Decatur and happened to meet Suits and knew the circumstances of the case. Owens reported the matter to Chief Applegate and made complaint and Suits was arrested by Officer Koeppe and locked up. He confessed that he had taken the money and had been on a spree and had spent it all. The master was reported to the Wabash officials and the man will be held until some word is received as to what shall be done with him.

## OTHER ARRESTS.

William Hilt was arrested last night by Officer Fenton. He was found in a vacant house at the corner of Jefferson and Church streets and was taken in the patrol wagon to police headquarters.

David Davis was arrested last night for riding a bicycle without a light.

## Y. P. T. U. Public Meeting.

The executive committee of the Y. P. T. U. met at the First M. E. church last evening and arranged for a big public temperance meeting to be held July 11 at the First M. E. church.

A speaker of prominence will be secured from out of town and other special features will be included in the program.

## Discovered by a Woman.

Another great discovery has been made, and that too by a lady in this city. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recover, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose that she slept all night; and with two bottles has been absolutely cured." Thus writes W. C. Mrs. Luther Lutz. This writing W. C. Lammick & Co., of Shelby, N. C. Trial bottles 10c at J. P. King's and C. F. Shillings Drug Stores. Regular size 50c and \$1.00. Every bottle guaranteed.

**LETTER TO MRS. PINKHAM NO. 14,561**  
 I have taken eight bottles of Lydia E. Pinkham's Vegetable Compound with gratifying results. I had been married four years and had two children. I was all run down, had falling of womb with all its distressing symptoms. I had doctorized with good physician, but derived very little good from his treatment. After taking a few bottles of your medicine, I was able to do my work and nurse my seven months' old babe. I recommend your medicine to every wife and mother. Had I time, I could write much more in its praise. I bid you God's speed in your good work.—Mrs. L. A. Morris, WELAKA, PUTNAM Co., FLA.

**DEAR MRS. PINKHAM**—When I commenced the use of your remedies I was very bad off. Every two weeks I was troubled with flowing spells which made me very weak. I had two of the best doctors, but they did not seem to help me.

"They said my trouble was caused from weakness and was nothing to worry about. I felt tired all the time; had no ambition. I was growing worse all the time until I began the use of Lydia E. Pinkham's Vegetable Compound. I am now able to help about the house, and am much improved in health."—Mrs. A. WALKER, CALICOON DEPOT, N. Y.

Dakota School Children in  
a Tornado.

BROOKINGS, S. D., June 22.—A small tornado passed through Trenton township yesterday, demolishing the school house and damaging buildings and residences. Miss Kate McNamara, teacher, left school, taking the pupils to the Buckey residence cellar, thus saving their lives. Another teacher, farther east, sent the children home, but a heavy hail storm followed the tornado and two of the little children came near being killed by hail stones. A little boy saved his sister by placing her on the ground and then covering her body with his. The boy was rendered unconscious by the hail, but his sister escaped harm. One farmer lost his entire crop by the hail. Others sustained more or less damage.

**OUR BEST TEACHER.**

It is Wrestling Against Opposition That Makes Spiritual Giants of Men.

Culture and character come through suffering. Life is God's university; happiness is the graduating point, but trouble and adversity are among the chosen teachers. The world is built for joy, but man comes to his full estate through the tutelage of sorrow. If man washes his eyes in tears and mukes his garments white with blood, he, too, is promised the throne and scepter of the higher manhood. Suffering is an alchemist refining coarseness and transmuting bad into good, selfishness into sympathy. Steel is iron plus fire. Tools are steel plus gashing axes. Statues are marble plus the chisel, whose every stroke makes sparks fly. Manhood is nature plus the temptations that chisel out character. Bronze doors of old cathedrals are all of beaten handwork, and character is hammered out on the anvil of adversity; wine comes through crushing of grapes, and joy is a fine spirit oft distilled from bruised affection. Sin and selfishness dig great furrows in the face, so suffering is sent in to iron the lines out smooth again. From Paul to Livingstone, what heroic leader hath worn soft raiment? What Luther or Lincoln was reared in kings' palaces? It is wrestling against opposing winds that works toughness into trees and gianthood into men. If the poet's vision is ever fulfilled and we judge the angels doing easy duty at home, we must first, as veterans of the old guard, achieve our scars and hold our tattered flags in fierce battles upon a far-off frontier. Optimists always, let us not "make believe" and play there are no troubles. One form of folly is always to drag the corpse into the banquet; another is to try and triumph over tragedies by averting our eyes.—Rev. Newell Dwight Hillis, in Ladies' Home Journal.

**FLOWERS FOR OLD STAMPS.**

How the Women of St. Mark's Episcopal Church in Chicago Get Altar Decorations.

One church congregation in Chicago collects 25,000 canceled postage stamps every week, and 1,300,000 in a year. This is St. Mark's Episcopal church, corner Cottage Grove avenue and Thirty-sixth street. These stamps are sold to a florist for eight cents a thousand, and she returns them for flowers for the altar every Sunday. For a long time the committee of ladies in charge of the church decoration were dismayed at the scant appropriation for the purchase of flowers. At last one of them hit upon the plan of selling old postage stamps. Enthusiasm was communicated to the Sunday school pupils. They visited offices of vestrymen and prominent church members downtown and got them to save the postage stamps on their correspondence. Ladies of the church began to carry on a correspondence with long-neglected friends for the sake of accumulating canceled postage stamps, and the habit is now fixed, says the Inter Ocean.

**SCARCITY OF SKINS.**

Deerskins, which are used to make buck gloves, are extremely high and scarce. Last year at this time they brought about 20 cents per pound, and now they are selling at double that figure. This advance was not a sudden one, for prices have been steadily climbing upwards until they have reached their present high figure, and the prospects are now that they will advance still farther.

There are several reasons for this. In the first place, the demand is greater this year than the past one. The winter was unusually cold, more heavy gloves were sold than usual and the merchants throughout the west and northwest expect a large demand for these gloves next season, and their stocks are all pretty well cleaned up; they bought bigger bills than usual, and the demand is now greater than the supply.

Furthermore, there have not been as many skins shipped to this country this year as last. One of the dealers said he believed the reason for this was that the South American countries are becoming more populated along the coast and the deer are going into the interior where they are hard to catch. Then again the prices were so low last year that a great many people who had been engaged in this enterprise found it unprofitable and turned to other channels to make a livelihood.

Deerskins come from South America, Central America and Mexico, and the most of them are taken by glove manufacturers. The piano people also use a small number, but it does not amount to much over 10 per cent of the amount imported. These skins are now so scarce that they are sold before their arrival, and there are no stocks to be had in the city.

On account of the advance in the price of skins the price of gloves has advanced all the way from \$1 to \$2 a dozen.

Hogsheads are also scarce, and have risen in value about 25 per cent. These are also used in making working gloves, the price of which has been increased. But they do not sell such large amounts, and the rise in the market is not felt as much as that of the buckskin gloves.

Sheepskin gloves are also only sold in limited quantities, but they have also been advanced in price on account of the great increase in the cost of skins.

Mocha sheepskin, which is used for the mocha gloves, which have come into such prominence lately, has also been advanced about 25 per cent. These skins have been in request during the last few months, which probably accounts for their rise in values.

Every skin that is used for working gloves has been advanced and consequently the gloves are now selling at from 10 cents to \$2 more a dozen than they did last year at this time.

**A HARD HIT.**

The Springfield Republican, an Aguilando-Mugwump organ, had the pleasure of receiving the following in a letter from its correspondent at Manila:

"Now, if firing on flag of truce, shooting his own people for honest opinion, applying the torch without reason, mutilating the dead, murdering the wounded and going down through the ages with the halo of a twice-bought traitor can be proved in the history of Washington, then the comparison may be a happy one; but until then most of us beg to be excused from this Aguilando worship. The next move will be to put Aguilando alongside of Jesus Christ, as Bryan is trying to do with Jefferson."

St. Louis Globe-Democrat: The Filipinos keep on killing the wounded American soldiers whom they chance to come in contact with and mutilating the dead. These are the creatures whom Atkinson, Garrison, Hoar, Billy Mason and the other moral freaks call patriots of the Lexington and Bunker Hill variety. Moreover, the "George Washington" of the Philippines is understood to encourage this ghoulishness. The American people are not revengeful, but they would like as an experiment to see some of the copper heads taken out by the American soldiers around Imao or San Fernando, and then "lost," so as to learn how the Filipinos would act toward them.

Senator Butler of South Carolina, who was for Bryan against the world in 1896, is now against Bryan and for Gorman for president in 1900, and yet there are a few Democrats who believe their leaders are honest in their convictions. The facts are the only conviction the Democratic campaign has is that his party should hold the offices no matter how they fool the people to get them. Gorman was called a "Judas Iscariot" by the party leaders in 1896. It was the hue and cry of that year.

There is very little respect in this country for the mugwump. There was a time when many were impressed with the idea that the mugwump was

honest and wise, but his secret has been penetrated and he stands only for selfishness self-conceit and sour grapes.

One of the streets in Santiago has been named after General Wood and another after General Shafter. It is probable the city had a Broadway and changed it to Shafter to magnify its size.

Another Citizen Who Adds His Testimony to What Has Been Said.

The people of Decatur do not hesitate to add their testimony to that of other citizens who have used Morrow's Kid-ne-oids for lame back and all ailments arising from disordered kidneys. Kid-ne-oids will cure dizziness, sleeplessness, nervousness and all kindred ailments.

Michael Clark, who lives about three miles west of the city, says that he has had kidney trouble since 1887, and has spent hundreds of dollars for medicine and has been treated by different physicians. "I lost a great deal of time from work. I heard about Morrow's Kid-ne-oids, and like a drowning man grasping at a straw, I decided to try them. Kid-ne-oids have proven to be the very medicine that I needed. I believe I was nearly gone when I first used Kid-ne-oids and could not have lived much longer. I have used three boxes and I am a new man in every way; in fact, I feel my old self again. I am so interested in Morrow's Kid-ne-oids, that I shall be glad to be personally interviewed by any person who wishes to come to me, or I will answer all mail inquiries from those who enclose a self addressed, stamped envelope."

If you desire more proof of the good Morrow's Kid-ne-oids are doing in this city every day? If so, watch the papers and you will see the names of many whom you know. Morrow's Kid-ne-oids are not pills, but yellow tablets, which is the scientific form of preparing medicine, and are put up in wooden boxes which contain enough for about two weeks' treatment and sell at 50 cents a box at Armstrong Bros' drug store.

A descriptive booklet will be mailed upon request by John Morrow & Co., Chemists, Springfield, Ohio.

Eyes that are wide apart are said by physiognomists to indicate great intelligence and a tenacious memory.

A Lancashire undertaker lately fell dead at a funeral he was conducting. G. L. Watson, designer of the famous English yachts, has never owned even a rowboat of his own.

Sleeping Bear, a full-blooded Gros Ventre Indian, successfully conducts a general store at Great Falls, Mont. He will not give his own people credit, but extends it to a limited number of time.

Collis P. Huntington always wears at work an ordinary black alk traveling cap. This he does at once upon removing his hat, and his clerks have a story that no man in his employ has ever seen him bareheaded.

An odd monument was designed by an elderly maiden lady who died a few weeks ago in Athlone, Ireland. She left a fortune of £27,000 to be spent in the erection of a church, provided that her body should be converted into ashes and used in making the mortar for building the edifice.

**THE LADY OR THE TIGER.**  
This One Had a Number of Very Good Reasons for Not Marrying.

One would scarcely go to the mountains of West Virginia to find even so much as a semblance to the story of The Lady or the Tiger, but I came very nearly doing it on one occasion. I had been invited, largely as a representative of the biggest timber firm in the section, to attend a mountain dance, and I was there having as good a time as a man can have who doesn't dance even the old-fashioned quadrille and that kind. At the moment I was "sitting out a dance" with the prettiest mountain girl in the whole neighborhood, and I was mildly jollying her about not being married. She was 24, which is old-maidhood in the mountains, except in the case of very pretty girls, of whom there are very few among the mountaineers.

"I could marry if I wanted to," I reckoned, "but I'm not a shake of her hair."

"Yes, there's Jim Mullins. He wants you. Why don't you marry him?" I asked, with a little more directness than might have characterized my utterances in a more conventional atmosphere.

"Huh!" she sniffed. "Jim's red-headed, and freckled, and has a turkey aig."

"John Horgan isn't. What's the matter with John? I'm sure he would have you quick enough if he could get you."

"You're foolin', colonel," she said, blushing a little. "Anyhow, I don't want John. He walks has like ez of he was cross-eyed in the foot."

"Well, there's Sam Hodgkin. Sam's a good fellow, and would make a good husband."

"Praps he would—for some other lady, but not for me. Sam's ugly enough to make a mule bray. I've seed him do it by just lookin' over the fence."

"How's the school teacher? He isn't so bad looking, is he?"

"What that long, ganglin', whopper-jawed thing? Why, I wouldn't marry him if he was the last man on earth."

Finding it rather difficult to satisfy this fastidious mountain maid from the selections I was making, I became a trifle more personal.

"Well, I said, with some effusion, "since none of these will suit you, how do you think I would answer?"

"Goodness sakes, colonel," she exclaimed, with all the naivete of nature, "if I married as nice a lookin' man ez you sir, leavin' all them others livin' around here handy, I'd be a widder afore three months, shore."

It was a compliment that I could not do otherwise than recognize, and at the same time it was very embarrassing, and I don't know what would have happened if it had not been for the opportunity of her partner for the next dance.—Washington Star.

**Oil on Dusty Roads.**

The world has for some time been aware of the use of oil on troubled waters, but the idea of oil to prevent dust storms in streets is a novelty. An Iowa engineer claims to have demonstrated that a liberal use of crude oil on muddy roads soon transforms them into models of cleanliness. The effect of sprinkling oil on the ground is to give it a hard, compact surface, upon which water cannot remain. The result is a complete absence of mud in wet weather and of dust at other times.

**UNGALLANT.**

"Oh, Mr. Ricketts!" said Mrs. Prosser to her star boarder, "the ladies and gentlemen of the house have decided to have a picnic this afternoon. If you care to go I'm sure we'd all be glad to have you."

"I don't know about going with the party," replied ungallant Mr. Ricketts; "but what time does the relief expedition start?"—Judge.

**Kodol Kidney Disease 27 Years.**

Mr. G. A. Stilman, a merchant of Tampico, Ill., writes: "I have a Kidney Cure in meeting with wonderful success. It has cured such cases that physicians pronounced incurable. I myself am not able to testify to its merits. My father is living a living picture of health. His Foley's Kidney Cure has made it much. I had suffered twenty-seven years with the disease, and today I feel ten years younger than I did one year ago. I can obtain some wonderful certificates of its medical qualities. H. W. Bell, N. L. Krone, W. H. Hubbard.

**Over-burdened Women.**

Many a man sees his wife bend and tug at burdens that strain the back and the heart alike, without any idea of the outrage. Children follow in too quick succession to allow the mother time to recuperate. The woman's organs are deprived of space, and the digestive system, with the added pain of inflamed or ulcerated parts. In this condition the woman bravely tries to carry her household load, afraid to take the rest she needs lest meat will be late. No wonder she is pale, weak, wretched, sunken in the face, and the hair is thin and brittle. She would be false to nature if she were anything else.

No person need help so much as the class of whom this woman is the type. And for such women no help is in sure, so wonderful, as that given by Dr. D. E. Pierce's Favorite Prescription.

It restores all the womanly organs to perfect health. It establishes regularly in their functions. It restores the strained and shattered nervous system.

It clears up the complexion, rounds out the form and makes life a daily happiness.

The Favorite Prescription is the best medicine for women. Nothing can be "just as good" as the best. Tell the dealer so if he offers a substitute.

I have long thought it my duty to write to you what your "Favorite Prescription" is done for me," writes Mrs. Eugenie Falconer, of Trent, Muskegon Co., Michigan. "I am married for twenty years. I am the mother of four children. My first two babies were still-born, and I suffered everything but death. My friends all said I must be crazy to take such risks. I was so weak and feeble when I was three months along for my third child I was taken with hemorrhage of the nose, and I was near death. For two months I was under the care of our doctor, but was getting weaker all the time until one day I happened to be walking in the park and I saw a woman carrying a tray with three bottles of 'Favorite Prescription' and one bottle of 'Pell's Pellets'. I improved, and continued to take them until baby was born, and I am healthy and all right. My baby girl is two years old, and my health has never been better. I am now a strong woman."

Dr. Pierce's Pellets increase the efficacy of "Favorite Prescription" where laxative is required.

#### Stranger Takes a Small Fortune at Boston.

BOSTON, June 22.—A sneak thief entered the Metropolitan National Bank today and stole \$10,000 while the paying teller's attention was drawn away for a moment. The thief came to the teller's window and asked directions about sending a money order. The teller gave him the information. The stranger stood at the counter, apparently making notes. Just then the teller was called to another part of the bank. The visitor quickly thrust an arm through the grating, snatching \$50 \$100 notes and five \$1000 notes. A young lady in the bank saw the action but before she could give the alarm the thief escaped. He was apparently 28 years of age and well dressed.

#### A STRANGE AFFECTION.

It Creeps Out Amongst Society Ladies Who Have the Five O'Clock Tea Habit.

There is a nervous disease—the result of the five o'clock tea habit—which afflicts many women, says the New York Herald. Said one bright woman lately:

"I never remember finishing a sentence which I have commenced at one of these functions. Before I have a chance to whom I am introduced, I begin again, to have the experience duplicated again and again. I have the same trouble with my cups of tea. I put them down half emptied to greet some new arrival, to find them whisked away, and each one repeats the history of its predecessor."

"I leave these 'bum worries' with a trail of unfinished phrases and un-drunk cups of tea behind me. I go home in a thoroughly unkempt frame of mind, with a tendency to leave off everything I undertake and start something fresh. It is really a disease, a sort of five-o'clock-tea paralysis. Just like lit ten at any of these receptions and you will agree with me. The women talk in spasmodic staccato gasps. You never get the point of a story or the telling point of a biography. Everyone has his eye on the door for the new arrival, who may prove more interesting or desirable than the one she is talking to."

## The Miniature On Ivory...

Is a revival of the dainty portraiture of the seventeenth century. To-day the society columns of the leading journals of the country are mentioning the miniature as the portrait among people of taste and refinement.

We have secured the services of one of the best miniature painters in Boston and are now prepared to show specimens of the work.

## FIREMEN ORGANIZE

Will Have Mutual Benefit Association in Decatur.

## THE INCORPORATION PAPERS

Have Been Applied For—When They Arrive Further Details Will be Arranged — Sick and Accident Benefits.

Some of the members of the Decatur fire department are organizing a mutual benefit association. Attorney J. T. Whitley has drawn up the papers and yesterday they were sent to Springfield and Secretary Rose asked to issue a certificate of incorporation.

The organization will be styled the Relief Association of the Paid Fire Department of the City of Decatur, and the organizers are Chief C. W. Devore, Samuel Morthland and Edward Platt. The board of directors will be composed of the above named together with John Duffy and Thomas Eulows. When the incorporation papers are received committees will be appointed.

The object of the society is to give relief to sick and disabled firemen and the members of their family. In nearly every city such organizations are in existence among the firemen. It is expected that all members of the Decatur department will join the society. Each man joining will be required to pay a certain fee, but the amount and other details have not yet been arranged. There will be quarterly dues and the money will be set aside to be used when any of the firemen or their families are in need. In case of accident or sickness the disabled fireman will be entitled to a weekly allowance which will be of considerable help at such a time. It is not an infrequent occurrence that when the firemen have done especially good work at a fire that the owners of the property make them a present. When such cases arise hereafter the appreciation of such persons can be shown by making a donation to the funds of the association.
